1. Thank you for the information you passed along on the interviews of [Redacted] on 3 and 7 June 1966. These cases, along with [Redacted] case, have been looked into very closely here by me and by [Redacted] to determine the validity of the charges as well as corrective action that may be required.

2. All things considered, I think it would be most helpful if you were to send one of your people to the Center to review and discuss with us in detail both the cases of [Redacted] and the general situation in the Photo Laboratory Branch. At the same time, your representative could carry out such independent investigations as he deems necessary.

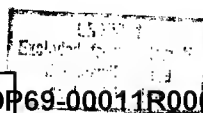

3. If you concur with this suggestion, please so advise me and arrangements will be made promptly to accommodate your representative.
